The Login Screen looks like this:

# PowerSchool

## Login

User Name

Password

Having trouble logging in?

## Create an Account

Create a parent/guardian account that allows you to view all of your students with one login account. You can also manage your account preferences. [Learn more.](#)

**Note:** To add a student to your P/GA account you must first call the Guidance Office [607.847.7500 extension 1120] to request the Access ID and the Access Password. For confidentiality, the above will be sent to the home with the student or by US Mail. It may not be given out over the phone.

Access ID: \_\_\_\_\_

Access Password: \_\_\_\_\_

\* The first time you access the system you will need to click on **Create Account** \*

If you are a returning user, all passwords are as they were at the end of last school year.

Fill in the screen below. The information in the Create Parent/Guardian section is provided by you. If you choose a User Name that another user has selected, PowerSchool will ask you for a different User Name.

In the bottom section, the Access ID and the Access Password are provided to you by the District for each of your children in grades six through twelve. (Please see the note on the previous page.)

Remember to click the Enter button at the bottom when you finish.

## PowerSchool

### Create Parent/Guardian Account

First Name	<input type="text"/>	
Last Name	<input type="text"/>	
Email	<input type="text"/>	
Desired User Name	<input type="text"/>	
Password	<input type="password"/>	<input type="password"/>
Re-enter Password	<input type="password"/>	

### Link Students to Account

Enter the Access ID, Access Password, and Relationship for each student you wish to add to your Parent/Guardian Account

Student Name	Access ID	Access Password	Relationship
1. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>
2. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>
3. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>
4. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>
5. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>
6. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>
7. <input type="text"/>	<input type="text"/>	<input type="password"/>	- Choose <input type="button" value="v"/>

Once this form has been completed you will login with the User Name and Password that you created to access your children's information.

Here is what the main menu shows:

At any time, users can click on the PowerSchool logo to return to the main screen. The School Bulletin link, the Class Registration link, and the My Calendar link are not active...

Grades and Attendance

This is a sample **Grades and Attendance** screen. Clicking on a grade in blue will give more detail. Clicking on a teacher's name in blue will address an email to the teacher if you have an email program configured to do so.

Grade History

Course	Grade	%	Clt	Hrs
F1				
Fd Prep Nu	95	95		0.5
LI				
Course	Grade	%	Clt	Hrs
Fd Prep Nu	89	95		0
MI				
Course	Grade	%	Clt	Hrs
Heat Design	95	95		0

This is a sample **Grades History** screen. It shows grades from completed courses for the current year.

Email Notifications

What information would you like to receive?

- Summary of current grades and attendance
- Detailed reports showing all assignment scores for each class
- Detailed report of attendance
- School announcements
- Balance Alert (Note: Will only be sent when a student is low on funds.)

How often?

Send now?

Email Address(es)   
(separate multiple email addresses with commas)

Users can set up automated **Email Notifications**.

**Teacher Comments\***

Exp.	Course	Teacher	Comment
1(E-O)	Gourmet Fds	* Ramirez, K	
2(E-O)	Eng I I	* Solomon, P	
3(E-O)	Bas Design	* Wightman, T	
4(E-O)	Lunch	* Johnson, Frank	
5(E-O)	Study Lab	* Cleveland, B	
6(E-O)	Trig F	* Fenton, S	

**Teacher Comments** appear as report card periods near.

**Account Preferences** Clicking this link will enable you to change your personal information.

**Other information:**

- Grades on assignments may take a number of days to be entered by teachers.
- A term grade may be calculated using weightings. Please contact the teacher for an explanation.
- Automated emails may be sent to more than one address. Addresses must be separated by commas.
- Both Macintosh and Windows computers can be used to access the system.
- Recent versions of the following web browsers are known to work: Firefox, Safari, and Internet Explorer.
- For privacy purposes, remember to click the Logout button when you are done.

## Parent Single Sign-On Quick Reference Guide

Parent Single Sign-On offers a number of benefits, including access to multiple students with one sign in, a personalized account for each parent and guardian, and the ability for parents to retrieve their own sign in information. Parent Single Sign-On changes the way in which parents access their students' academic records using the PowerSchool Parent Portal. This Quick Reference Guide is designed to assist you through the process of enabling and setting up Parent Single Sign-On in PowerSchool.

### Terminology

The names of the fields listed below were updated to more accurately represent their functionality. While the database field names remain the same, we recommend that you update the text of any letters or reports to reflect this terminology.

- **Student Access, Allow** is now labeled **Enable Student Access**
- **Student Web ID** is now labeled **Student User Name**
- **Student Web PW** is now labeled **Student Password**
- **Guardian Access, Allow** is now labeled **Enable Parent Access**
- **Guardian Web ID** is now labeled **Access ID**
- **Guardian Web PW** is now labeled **Access Password**

### Enabling Parent Single Sign-On

By default, Parent Single Sign-On is NOT enabled. Before you enable Parent Single Sign-On, you will want to familiarize yourself with the changes and communicate the changes to your staff and parents.

In PowerSchool, you will see changes related to Parent Single Sign-On in PowerSchool, allowing you and your staff time to prepare for Parent Single Sign-On.

In the PowerSchool Parent Portal, no changes are in effect until you enable Parent Single Sign-On. The Access ID and Access Password will continue to function as the Guardian Web ID and Guardian Password, respectively, until Parent Single Sign-on is enabled. Once Parent Single Sign-on is enabled, the Access ID and Access Password will then serve as the credentials parents will need to enter when creating or adding students to their accounts.

To enable Parent Single Sign-On, navigate to **System > System Settings > Security**, select the **Enable Parent Single Sign-On Security** checkbox, and then submit.

### Server Configuration

For Parent Single Sign-On to function, PowerSchool Configuration - External Access settings must be configured correctly. To configure, navigate to **System > System Settings > Global Server Settings**. For more information, see the *Installation Guide for PowerSchool 7.0* available on **PowerSource**.

## Access Accounts

A student-level page named "Access Accounts" is available in PowerSchool and is accessible via **Start Page > Select Student > Access Accounts**. This page places all of the functions related to accessing students' academic information via the PowerSchool Parent Portal into a central location for ease of use. To provide visibility to this page, modify the security privileges for all groups requiring access to the functionality on this page, navigate to **System > Security > Groups > Group Name**, select the **Access Accounts** checkbox in the **Accessible Student Screens** section, and then submit.

Access Accounts includes the following fields and functions that were previously accessible via the Modify Info student page:

- **Enable Student Access** previously labeled **Student Access, Allow**
- **Student User Name** previously labeled **Student Web ID**
- **Student Password** previously labeled **Student Web PW**
- **Enable Parent Access** previously labeled **Guardian Access, Allow**
- **Access ID** previously labeled **Guardian Web ID**
- **Access Password** previously labeled **Guardian Web PW**
- Auto-assign IDs and Passwords - This function auto-assigns the Student User Name, Student Password, Access ID, and Access Password in accordance with the settings established in the Assign IDs & Passwords special function (**Special Functions > Assign IDs & Passwords**)
- If enabled for students, LDAP functionality is also accessible via the Access Accounts page

## Parent Search

A page named "Parent Search" is available in PowerSchool and is accessible **Start Page > Parent Search**. This page allows you to search for parent accounts, including searching by first name, last name, email address, or you can browse by the first letter of the last name. This search function finds only the parent accounts that have been created either by parents using the **Create Account** function in the PowerSchool Parent Portal or by the PowerSchool Administrator using the **New Parent Account** function in PowerSchool. This search will not find parent information that exists in the Student table or parents that have accessed the PowerSchool Parent Portal using the Guardian Web ID and Password before enabling Parent Single Sign-On.

## New Parent Account

A page named "New Parent Account" is available in PowerSchool and is accessible via **Start Page > New Parent Entry** or **Start Page > Parent Search > New Parent Entry**. This page allows you to establish a parent account. All fields on this page are required, and include the following:

- **First Name**
- **Last Name**
- **Email** (must be unique)
- **User Name** (must be unique)

- **Password**
- **Re-enter Password**

Once the parent account is established, you can then add one or more students to the account. To add a student, click the **Add** icon and search on the student's last name. For each student you wish to add, indicate the relationship of the parent to the student, select the **Add** checkbox, and then click the **Add** button.

## Account Change Notifications

Email notifications are sent to the primary email address associated to a parent account when either the PowerSchool Administrator or the parent makes changes to the parent account, including the following:

- Add a student
- Remove a student
- Change first or last name
- Change user name
- Change password
- Change email address – notification sent to both the old and new email address

**Note:** Email notifications for account changes are sent only if Parent Single Sign-On is enabled. This allows you to set up accounts on behalf of parents if you choose to do so prior to enabling Parent Single Sign-On without inundating parents with email messages.

## Email Preferences in PowerSchool

Previously, Email Preferences were maintained at the student-level and shared by all parents who had access to a given student account. With Parent Single Sign-On, email preferences are maintained per parent per student, and are accessible via the following areas:

- The centralized Parent module
- The Access Accounts student-level page

## Email Notifications in the PowerSchool Parent Portal

Prior to enabling Parent Single Sign-On, the email notifications, including the summary of grades and attendance, detailed assignment scores, detailed attendance report, school announcements, and balance alerts will continue to be sent in accordance with the email preferences as set on the Parent student-level page accessible via **Select Student > Parent**.

Once Parent Single Sign-on is enabled, the email notifications will be sent in accordance with the email preferences as set for each Parent account for each student.

## Email Information in PowerTeacher Gradebook

Prior to enabling Parent Single Sign-On, the email information visible in PowerTeacher Gradebook will continue to reflect the email addresses as set on the Parent student-level page accessible via **Select Student > Parent**.

Once Parent Single Sign-on is enabled, the email information visible in PowerTeacher Gradebook will reflect both email addresses as set for each Parent account for each student as well as email addresses as set on the Parent student-level page accessible via **Select Student > Parent**.

## Parent Sign In

Prior to enabling Parent Single Sign-On, when the **Enable Parent Access** checkbox (previously labeled **Guardian Access, Allow**) is not selected, a parent cannot log in to the PowerSchool Parent Portal for that student. A message displays that reads "Invalid User Name or Password."

Once Parent Single Sign-On is enabled, and the **Enable Parent Access** checkbox (previously labeled **Guardian Access, Allow**) is not selected, the parent will be able to sign in to the PowerSchool Parent Portal as they may have other students for whom access is enabled. For any student for whom this access is not enabled, a message displays that reads "This information is not available for the current student at this time."

A parent must have a minimum of one pre-registered or enrolled student in order to sign in with his or her parent account. If no pre-registered or actively enrolled students are linked to a parent's account, a message displays that reads "You are unable to access your account at this time. Please contact your school directly for assistance."

If a parent attempts to log into the PowerSchool Parent Portal after Parent Single Sign-On Security has been enabled using the Guardian ID and password, a message displays that reads "Invalid User Name or Password!"

## Create Parent Account

A page named "Create Parent Account" is available in the PowerSchool Parent Portal and is accessible via **Sign In page > Create Account**. This link is visible only if Parent Single Sign-On is enabled.

This page allows parents to establish their own parent account. The first section on the page, "Create Parent Account," is the information necessary to establish the parent's account. All fields in this section are required, and include the following:

- **First Name**
- **Last Name**
- **Email** (must be unique)
- **Desired User Name** (must be unique)
- **Password**
- **Re-enter Password**

The second section on the page, "Link Students to Account," requires that the information for at least one student be provided, and includes the following:

- **Student Name**

- **Access ID** (previously labeled Guardian Web ID)
- **Access Password** (previously labeled Guardian Web Password)
- **Relationship**

Parents may enter the information for up to seven students when initially establishing their account. If they need to add additional students they can do so after establishing the account by logging in and navigating to **Account Management > Students**.

Common data entry errors include not completing all fields, entering an email address or user name that is already associated to another account, or entering incorrect access IDs or passwords. When this occurs, parents will need to re-enter any information that was not entered correctly, and also re-enter any passwords for security reasons.

### **Account Preferences**

A page named "Account Preferences" is available in the PowerSchool Parent Portal and is accessible once the parent has logged in by clicking the **Account Preferences** icon in the top navigation menu. This page allows parents to manage their account information, including their name, user name, account password, and email address. Parents can also add additional students to their account, provided they have the access ID and access password for any student they wish to add.

### **Email Preferences in the PowerSchool Parent Portal**

The "Email Notifications" page available in the PowerSchool Parent Portal has been updated and is accessible once the parent has logged in by clicking the **Email Preferences** icon in the top navigation menu. This page allows parents to customize their email preferences for each student associated to their account.

This is one way to encourage your parents to sign up for the new Parent account; they can set up email preferences per student and ensure that they continue receiving the email notifications via email.

# UNADILLA VALLEY CENTRAL SCHOOL DISTRICT

February 12, 2008

## **PowerSchool Parent/Guardian Access**

In the near future, the parents and guardians of students in grades six through twelve will be able to sign up for online access to the grades and attendance of their students. Users of the system will also be able to have automatic email updates sent to them.

It is our hope that PowerSchool Parent/Guardian Access will help us establish better communications between home and school.

Here is a view of the menu that appears after logging into the system:

**PowerSchool**

We have scheduled training and sign-up sessions to be held at school. All parents and guardians of students in grades 6 through 12 that want to have access will be required to come to school for a training session. This requirement serves two purposes. In addition to providing necessary information about use of the system, we need to maintain a high level of security due to the confidential nature of the data in question.

Parents and guardians are invited to attend one of the following sessions:

- Monday, February 25, 2008 at 6:00 p.m.
- Wednesday, February 27, 2008 at 6:00 p.m.

The sessions will be held in the Elementary Computer Lab which is adjacent to the Elementary Library.

Please register for one of the sessions by visiting our website ([www.uvstorm.org](http://www.uvstorm.org)) and clicking on PowerSchool Parent/Guardian Access
