I certify that the information provided above and in the attached documents is true and accurate to the best of my knowledge. I understand that the accountability status determination reported in the Information Reporting Services (IRS) portal/nySTART is official and that the district and its school must meet all federal and State requirements pertaining to such accountability designations and expected student performance improvements.

I further certify that I have reviewed the Diagnostic Self-Review Document and met with the school leadership to discuss and revise the rubric ratings as appropriate and that I concur that the ratings provided in the rubric are an accurate assessment of the school's current performance in relation to the tenets.

Superintendent's Signature _____ Date _____

For New York City schools, the Community School District Superintendent must sign the self-assessment.

A Message to School/District Leaders:

The purpose of the New York State Education Department (NYSED) school review is to provide all New York State (NYS) stakeholders currently involved in school and/or district evaluation cogent messages around school improvement and highly effective educational practices. Our thinking is that the more the NYS educational community engages in common practices and uses common language to evaluate and describe effective schools, the more readily we, as an educational community, will be able to provide high-quality seats to all students in our state.

Guidance

The Diagnostic Self-Review Document provides an opportunity for the school, with the assistance of the district, to assess its current level of performance in regard to the school leadership, teacher practices and decisions, curriculum development and support, student social and emotional developmental health, and family and community engagement. Schools should use the self-review as an opportunity to identify actions to be taken to improve student academic results for the identified subgroup(s), describe the district resources to be used to implement the actions identified, and describe the professional development activities planned to support the implementation of the actions to improve student academic results.

The Diagnostic Self-Review Document and Report Template must be approved by the district's Board of Education (for New York City (NYC) schools, it must be approved by the Chancellor) and posted to the district's website by Friday, November 22, 2013, as well as kept on file at both the school and the district offices.

Completing This Form

- ✓ Before completing this form, please examine the rubric, and discuss the tenets and the statements of practice with the district representative who will be assisting you in completing, reviewing and approving your LAP Self-Assessment. As the rubric used for the Diagnostic Self-Review is the same one as used for Diagnostic Review for School and District Effectiveness (DTSDE) conducted in Focus Districts, the DTSDE website (<http://www.p12.nysed.gov/accountability/diagnostic-tool-institute/home.html>) contains helpful information about the rubric.
- ✓ In collaboration with your school leadership team and your district representatives, complete the Self-Review by identifying the strategies and practices you either are planning to implement or have implemented that meet the needs of your school, as identified by the assessment.
 - Pay particular attention to the performance of the subgroups that caused the school to be identified as requiring a Local Assistance Plan (LAP).
 - Use evaluative language and connect how the strategies and practices have or will impact teaching and learning.
 - Make sure the activities proposed reflect a new and robust direction or a continuation of practices that are showing evidence-based positive results in closing the achievement gap(s).
- ✓ Be concise and clear when describing the evidence that supports your ratings.
- ✓ Provide information in the plan that addresses the "who, what, when, and why" of the strategies chosen to meet the needs of the school.
- ✓ **Please Note:** The designation of a school as a LAP means that a school has areas that need improvement, particularly as they relate to the subgroup(s) of students who are failing to make academic gains. These areas should be reflected in the ratings, evidence and action plans outlined in this assessment.
- ✓ Before the completed Self-Review Document and Report Template are submitted to the Board of Education (for NYC, the Chancellor) for approval, the school superintendent must meet with the school leadership to discuss and revise the rubric ratings as appropriate.

A successfully completed Self-Review provides an accurate picture of your school and its needs and describes the actions you and the district will take to address these needs. The evidence and plans for improvement described in the document will closely align to the expectations put forth in the rubric, therefore aligning the plan to the optimal conditions for school effectiveness.

If you have any questions regarding completion of the Local Assistance Plan Self Assessment, please send an email to accountinfo@mail.nysed.gov.

Rate each practice with an H, E, D, or I in the space provided. Before assigning a rating of Effective or Highly Effective to a Statement of Practice, the school should pay particular attention to how the statement of practice is related to the performance of the subgroup(s) of students who caused the school to be identified as requiring a LAP. When providing a response to a Statement of Practice that is Effective, Developing, or Ineffective, the school should specify whether actions will be targeted to the subgroup(s) of students who caused the school's identification or be part of a whole school transformation or turnaround strategy.

Tenet 2 - School Leader Practices and Decisions: Visionary leaders create a school community and culture that lead to success, well-being and high academic outcomes for all students via systems of continuous and sustainable school improvement.								
Rating	Statement of Practice 2.2: Leaders ensure an articulated vision, understood and shared across the community, with a shared sense of urgency about achieving school-wide goals aligned with the vision as outlined in the School Comprehensive Educational Plan (SCEP).							
<input type="checkbox"/>	Highly Effective	a) The school community shares and promotes a distinctive and robust vision for student achievement and well-being based on data and holds itself accountable for working as a community to realize this vision as outlined in its SCEP and other school improvement documents. b) The vision is created and enthusiastically supported by staff, families and students such that it is uniformly seen, heard and known across the community. c) The school community develops and works toward specific, measurable, ambitious, results oriented and timely goals that reflect urgent priorities and ensure the realization of the vision.						
X	Effective	a) The school community shares a vision concerning student achievement and well-being and for how they want to work as a community to realize this vision as outlined in the SCEP and other school improvement documents and data. b) The vision is created by a select group of staff and families and is supported by the school community such that it is uniformly seen, heard and known across the community. c) The school community develops and works toward specific, measurable, ambitious, results oriented and timely goals that reflect priorities that are aligned with the vision.						
<input type="checkbox"/>	Developing	a) The school community has a vision for student achievement and well-being and is in the process of developing shared ownership and ways to incorporate findings from the school's data. b) The vision created is gaining more support with the staff, families and students across the community. c) The school community is developing and working toward specific, measurable, ambitious, results oriented and timely goals; these goals are not priorities aligned to the vision.						
<input type="checkbox"/>	Ineffective	a) The school community has a vision, but it is misaligned to student achievement and well-being based on the school's data. b) The vision is unknown, not commonly understood and/or has not been shared with the staff, families and students across the community. c) The school community does not develop and work toward goals, or, if the community is working toward goals, they are not specific, measurable, ambitious, results oriented and timely.

Rating	Statement of Practice 3.5: The school leader and teachers develop a data-driven culture based on student needs, assessments and analysis, which leads to strategic action-planning that informs instruction and results in greater student achievement outcomes.							
<input type="checkbox"/>	Highly Effective	a) The school leader cultivates exemplary practices and models the collection and use of timely data (formative and summative assessments including screening, interim measures and progress monitoring) to assess school-wide effectiveness, identify student needs, and promote high levels of student learning and success. b) The school leader and teachers actively develop multiple points of assessments for students that immerse school teams in an in-depth analysis of assessment results and lead to the adaptation of instruction that is empirically/evidence based. c) The school leader and teachers collaboratively analyze collected data, leading to the development of comprehensive instructional plans for groups of students that capture current levels of student achievement, map out a clear and timely path for progress and growth, and engage students as active participants in their own learning.						
<input type="checkbox"/>	Effective	a) The school leader collects timely data (formative and summative assessments including screening, interim measures and progress monitoring) and shares it with teachers and instructional staff so they can assess school effectiveness, identify student needs, and promote high levels of student learning and success. b) The school leader and teachers use assessment tools to identify patterns of student learning that lead to the adaptation of instruction. c) The school leader and teachers analyze collected data, leading to the development of instructional plans for groups of students that capture current levels of student achievement and map out a clear and timely path for progress and growth.						
X	Developing	a) The school leader reviews limited data and informs teachers and instructional staff of student achievement levels. b) The school leader and teachers use summative assessments to identify patterns of student learning and inform instruction. c) The school leader and teachers' analysis of data leads to an adaptation of instructional plans based on the performance of specific students, which causes a misalignment of instruction for other students.						
<input type="checkbox"/>	Ineffective	a) The school leader does not use data as a mechanism to assess student achievement levels. b) The school leader and teachers do not utilize assessment tools as a vehicle to identify patterns of student learning. c) The school leader and teachers struggle with the use of data, which impedes their ability to inform the development of instructional plans for students.
